von Rosenberg Family of Texas

2019 Recap!

Thank you to all that attended the 2019 Family Reunion at Camp Lone Star.

We had a great time this past summer. We had lots of fun visiting and catching up. The weekend started off with a hot afternoon of golfing. We then enjoyed a variety of fun activities like archery, axe throwing, swimming, sining, and popular revival of the La Grange scavenger hunt.

cup next year!

von Rosenberg Y-DNA Surname Project

The purpose of the Rosenberg/Rosenburg Y-DNA project is to genetically define & identify the different families.

Y-DNA STR testing of the male Y-chromosome is a powerful tool for identifying genetically related men with a common ancestor on their patrilineal line. It can confidently support your membership in your own family & firmly separate you from other, non-related families. Y-DNA testing is highly successful in breaking down brick walls & debunking errors in paper genealogy.

Only males have a Y-chromosome, so only males can participate. The goal is to test at least 2 patrilineal line male descendants of every Rosenberg/Rosenburg family in the world.

This project started in 2017. Please visit <https://www.familytreedna.com/groups/rosenberg/about> to participate or donate to the project.

Family Updates

Branch 5 had the most members at the 2019 reunion.

Nettie Green at age 89 was the oldest at the family reunion this year.

Brent Lizakowski married Ellyn Scholz January 19, 2019 in Austin, Texas; Branch 5.
